KODO DESIGN & JINBA-ITTAI

STYLED TO IMPRESS MORE CAPACITY FOR FUN

Mazda2 is the compact car for the big city. Sophisticated design sets you apart from the crowd, while SKYACTIV TECHNOLOGY with G-Vectoring Control (GVC) provides driving agility and impressive fuel economy. MZD Connect in-car connectivity is a seamless part of the drive and smart safety features give you added confidence on every journey.

Forward thinking and fun driving performance is delivered with eye-catching style in both hatchback and sedan models. The dynamic 'KODO - Soul of Motion' design reflects the fierce beauty of an animal leaping into action. Mazda2 captures the imagination in every way possible.

魂動

KODO : SOUL of MOTION

金馬一たい

(1.5L SDN/HB LED)

Sporty LED headlights & stylish taillights for maximum visibility.

(1.5L SDN/HB LED)

16 inch aluminium alloy rims.

Available in 2 bodystyles: Sedan / Hatchback.

MZD CONNECT

CONNECTIVITY FOR THE NEXT GENERATION

Communication. Entertainment. Connectivity. Experience the next generation of in-vehicle connectivity with MZD CONNECT. Making and receiving a call is simple and convenient by using voice commands, commander control or the touch screen display.

Mazda2's thoughtfully designed cabin puts you right in the centre of the drive. High-quality craftsmanship surrounds you with sophisticated comfort. Dashboard information and controls are designed to keep your attention on driving. The interior is modern and uncluttered, with trims finished in refined textures, colours and patterns.

(1.5L SDN/HB LED)

MZD Connect with full-colour touch screen display and commander control lets you make calls, change your music and more without needing to take your hands off the wheel.

(1.5L SDN/HB LED)

Full-colour Active Driving Display shows your current speed and important navigation info all within your driving view.

(1.5L SDN/HB LED)

Single-Zone Auto Climate Control.

Drive Selection Switch allows driver to switch to sports mode for a more exhilarating drive.

SAFETY FEATURES

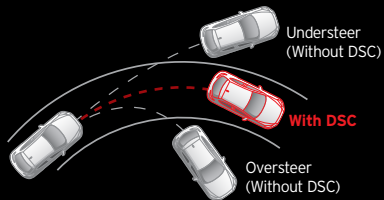

MORE THAN JUST GOOD LOOKS

When it comes to unexpected hazards, Mazda2 is ready to react. ABS brakes with EBD & EBA, Traction Control System (TCS), Dynamic Stability Control (DSC) and SRS airbags are standard across the range.

SKYACTIV-BODY utilises ultra-high tensile steel that cuts weight and boosts strength. Despite being light, Mazda2 achieves outstanding collision performance.

DYNAMIC STABILITY CONTROL (DSC) WITH TRACTION CONTROL SYSTEM (TCS)

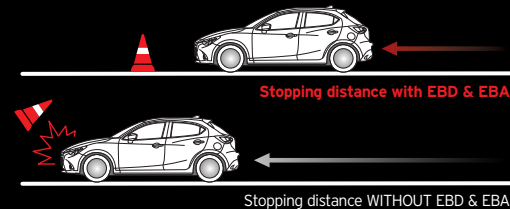

DSC with TCS electronically controls braking force applied to each wheel to help prevent understeer or oversteer and maintain vehicle stability when cornering on slippery road conditions.

SRS AIRBAGS

Dual front airbags provide protection against physical shock and injury in a collision.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD) EMERGENCY BRAKE ASSIST (EBA)

EBD with EBA makes it easier to maintain vehicle control and shortens the stopping distance when there is a large load on the rear wheels, such as when the car is carrying a full load of passengers.

EMERGENCY SIGNAL SYSTEM (ESS)

ESS activates the hazard lights to flash at high speed if the driver suddenly brakes when traveling at speed over 50km/h. This helps prevent collisions by warning following vehicles that the car is braking hard.

SKYACTIV VEHICLE DYNAMICS G-VECTURING CONTROL (GVC)

MORE CONNECTED IN THE CURVES

In pursuit of perfecting the driving dynamics of our Mazda vehicles, we developed SKYACTIV-VEHICLE DYNAMICS with G-Vectoring Control (GVC), a new technology to help achieve a smoother, and less fatiguing drive.

The system works seamlessly by controlling the G-forces going through the car while in motion by shifting the gravitational forces, this lets you enjoy both city driving and twisty roads with confidence. Why do we obsess over subtle improvements? Because we believe that by refining even the smallest of details, we can make driving better.

Turn-in starts - GVC activated

- Engine torque reduction
- Load shifts to front wheels

► Enhanced cornering response

Taking corners

- GVC senses steering angle
- Optimum engine torque calculated, instruction sent to engine

Steering angle maintained

- Engine torque restored
- Load shifts to rear wheels

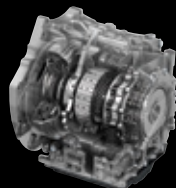

► Enhanced cornering stability

SKYACTIV TECHNOLOGY

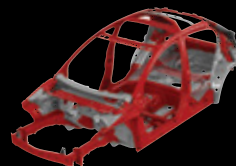

SKYACTIV-G

The high-efficiency, proven 1.5L petrol engine delivers crisp response and great low to mid range torque for lively performance both in city and on highways driving.

SKYACTIV-DRIVE

Fast, smooth gearshifting along with the direct, connected feel of a manual transmission - that is the responsive 6-speed SKYACTIV-DRIVE.

SKYACTIV-BODY

SKYACTIV-BODY employs optimized structures and advanced materials to simultaneously achieve lighter weight and increased rigidity for better safety and handling performance.

SKYACTIV-CHASSIS

The lightweight SKYACTIV-CHASSIS provides more comfort and security via its suspension setup, while at the same time delivering Mazda's hallmark fun-to-drive feel.

i-STOP

Mazda's i-Stop Idling Technology automatically shuts down the engine when you come to a complete halt after braking, avoiding fuel wastage while stationary in traffic or at a traffic light junction.

MAZDA2 TECHNICAL SPECIFICATIONS

● equipped — not available

Variant		1.5L SDN MID	1.5L HB MID	1.5L SDN LED	1.5L HB LED
Engine Type		SKYACTIV-G 1.5L			
Powertrain					
Type		DOHC 16-Valve 4-Cylinder			
Displacement	cc	1,496			
Maximum Output	Hp/rpm	114 / 6,000			
Maximum Torque	Nm/rpm	148 / 4,000			
Compression Ratio		14.0 : 1			
Drivetrain		SKYACTIV-DRIVE 6-Speed Automatic with Manual Shift Mode			
Fuel Type		Petrol			
Recommended Fuel		Min. Ron 95			
Fuel System		Direct Injection			
Fuel Tank Capacity	L	44			
Chassis					
Steering Type		Electronic Power Assisted Steering (EPAS)			
Accelerator Pedal		Organ Type			
Suspension Type	Front / Rear	MacPherson Struts / Torsion Beam			
Brake Type	Front / Rear	Ventilated Disc / Solid Disc			
Tyre Size		185 / 65 R15		185 / 60 R16
